Sound Systems

If you're looking for premium Audio Equipment, you've come to the right place! We provide a wide selection of some of the world's Leading Brands such as Sony, Kenwood, Pioneer, JVC, Alpine, Kicker and many more.

Navigation Systems

If you're looking for ways to upgrade your Car's Entertainment and Navigational Capabilities, you might want to consider adding some aftermarket media and accessories. Android Auto, Apple Car Play, and Bluetooth can all be used to connect your phone to your Car Stereo, allowing you to use apps and play music hands-free.

Air Conditioning

With hot weather steadily rising to extreme levels, Air-Conditioning has become more than just a luxury--it's become a necessity. Without a reliable and functioning Air-Conditioning System in vehicles, vehicles can experience unbearable temperatures that lead to discomfort.

Vehicle Diagnostics

We specialize in Vehicle Diagnostics for all makes and models. From identifying faults to troubleshooting and rectifying the issue, we guide our customers step-by-step through each process.

Vehicle Security

When it comes to feeling secure, there is no better option than a top-of-the-line Security System. We supply and fit a full range of Autowatch and Sanji Slarms, Immobilisers, and Anti-Hijack Systems for customers that want to give their belongings the best protection possible.

Auto Electrical

Vehicle Diagnostics works hand-in-hand with Auto Electrical. Auto Electrical aids in repairing and rewiring of Electrical Components to ensure that your vehicle is up to standards.

Mechanical Service

If you're looking for Mechanical Work for your car, then Trip 3 is the place for you! For years we have been providing reliable Mechanical Services to customers all across the area. Whatever Mechanical Work it is you need on your vehicle, you can count on us to do it right the first time.
